

Wissenschaftliche Publikationen, die basierend auf Gewebe der Stiftung HTCR erstellt wurden

Thasler WE, Letschert KC, Weiß T, Weinberger KM, Bolder U, Jauch K-W (1999) Vaccinia vermittelter Gentransfer in primäre humane Hepatozyten - Effizienz und Funktion unter Transplantationsbedingungen in vitro *Langenbecks Arch Chir I Forumband* 247-251

Thasler WE, Weiss TS, Letschert K, Hellerbrand C, An W, Jauch KW (2002) Einfluss von Hepatic Stimulator Substance (HSS) auf das Proliferationspotential von humanen Leberzellen *Langenbecks Arch Chir I Forumband* 31, 235-238

Schlott T, Thasler WE, Pahernik S, Gorzel C, Eiffert H, Droese M (2002) Detection of MDM2 Alterations in Cultured Human Hepatocytes Treated with 17 β -estradiol or 17 α -ethinylestradiol *Anticancer Research*; 22: 1545-1552

Weiss TS, Jahn B, Cetto M, Jauch KW, Thasler WE (2002) Collagen sandwich culture affects intracellular polyamine levels of human hepatocytes. *Cell prolifer* 35, 257-267

Armeanu S, Lauer UM, Smirnow I, Schenk M, Weiss TS, Gregor M, Bitzer M (2003). Adenoviral Gene Transfer of Tumor Necrosis Factor-related Apoptosis- Inducing Ligand Overcomes an Impaired Response of Hepatoma Cells but Causes Severe Apoptosis in Primary Human Hepatocytes. *Cancer Res.* 63, 2369-2372.

Mühlbauer M, Bosserhoff AK, Hartmann A, Thasler WE, Weiss TS, Herfarth H, Lock G, Schölmerich J, Hellerbrand C (2003) A novel MCP-1 gene polymorphism is functionally associated with hepatic MCP-1 expression and severity of HCV-related liver disease *Gastroenterology* 125, 1085-1093

Bosserhoff, AK, Moser, M, Schölmerich, J, Buettner, R, Hellerbrand, C (2003) Specific Expression and Regulation of the New Melanoma Inhibitory Activity-related Gene *MIA2* in Hepatocytes *The Journal of Biological Chemistry* 278, 15225–15231

Weiss TS, Pahernik SA, Scherübl I, Jauch KW, Thasler WE (2003) Cellular damage to human hepatocytes through repeated application of 5-aminolevulinic acid *J Hepatol* 38:476-482

Böhm S, Weiss TS, Thasler WE, Jauch KW, Schlitt HJ, Jilg, W (2004) Neue Wege zu einem besseren Verständnis der Hepatitis-B-Infektion *Biotechnologie in Bayern*, 18-23

Mühlbauer M, Weiss TS, Thasler WE, Gelbmann CM, Schnabl B, Scholmerich J, Hellerbrand C (2004) LPS-mediated NFkappaB activation varies between activated human hepatic stellate cells from different donors *Biochem Biophys Res Commun* 325 (1), 191-7

Steiling, H, Mühlbauer, M, Bataille, F, Schölmerich, J, Werner, S, Hellerbrand, C (2004) Activated Hepatic Stellate Cells Express Keratinocyte Growth Factor in Chronic Liver Disease *American Journal of Pathology* 165, 1233

Armeanu S, Pathil A, Venturelli S, Mascagni P, Weiss TS, Gottlicher M, Gregor M, Lauer UM, Bitzer M (2005). Apoptosis on hepatoma cells but not on primary hepatocytes by histone deacetylase inhibitors valproate and ITF2357. *J. Hepatology* 42, 210-217.

Böhm S, Thasler WE, Weiss TS, Jilg W (2005). Primary human hepatocytes as an in vitro model for Hepatitis B virus infection. *Monographs in virology* 25, 119-134.

Böhm S, Tausch, U, Röhrl, E, Thasler, WE, Weiss, T, Jilg, W (2005) In vitro neutralizing activity of polyclonal and monoclonal antibodies against different hepatitis B virus isolates. *Viral Hepatitis and Liver Disease* in Druck

Thasler WE, Mühlbauer M, Hellerbrand C, Lichtenauer M, Gräbe A, Jauch K-W, Schlitt H-J, Weiss TS (2005) Augmenter of liver regeneration modulates hepatic metabolism by reduction of cytochrome P450 activity in human hepatocytes in vitro. *Langenbecks Arch Surg Suppl* im Druck

Thasler WE, Schlott T, Thelen T, Hellerbrand C, Bataille F, Lichtenauer M, Schlitt HJ, Jauch KW, Weiss TS (2005) Expression of Augmenter of Liver Regeneration in human liver cirrhosis and carcinoma *Histopathology* , im Druck
